YOLO COUNTY TOTALS	

Presidential Primary Election Held May 4, 1920

Delegates to _____ Party National Convention

	Total Vote of Precincts

May 17th,1920.

A special meeting of the Board of Supervisors of Yolo County, is hereby called to meet in their office, in the Court House, in the City of Woodland, California, at 2 o'clock P.M. on Monday May, 17th, 1920, for the purpose of taking action to acquire a right of way for County Highway purposes from the West side of Third Street to the East line of Sixth Street, along the North side of the Southern Pacific Railroad tracks, in the Town of Washington.

Dated May 17th,1920.

Wm.J.Leinberger,
W.O.Russell,
F.B.Edson,
J.S.Scott,
M.H.Stitt.

May 17th,1920.

The Board of Supervisors met this day at 2 o'clock P.M., pursuant to the above call, in their office, in the Court House, in the City of Woodland, California.

All members present: Chairman Stitt presiding.

Matter of Resoultion,
Highway from Third Street
to Sixth Street in Washington.

Supervisor Russell moved the adoption of the following resolution.

Whereas, this County is about to construct a permanent highway from the West End of the Southern Pacific Bridge in the unincorporated Town of Washington, in this County, via Ann Street and the Washington Riverbank road and along the meanderings of the Sacramento River to Kiesel Station; and

Whereas, the present County Road leading Westerly from the West end of the said Bridge at Washington is on the south side of the Rail Road of the Southern Pacific Company and is too narrow for the present needs of the County and is dengerous to the lives and property of the public in that the public is obliged to cross the tracks of said Southern Pacific Company at the westerly end of said bridge where numerous trains pass; and

Whereas, it would be more feasable for the County to build said road upon the North side of the Rail Road of the said Southern Pacific Company on Ann Street in said Town of Washington; and

Whereas, it is to the best interests of Yolo County and to the Southern Pacific Company that said public highway be built on the North side of the Southern Pacific Company Rail Road along Ann Street in said Town of Washington and that such action will curtail the hazzards to the drivers of vehicles on said highway; and

Whereas, this County donated a franchise to the Southern Pacific Company to lay their road over said Ann Street; and

Whereas, it will be necessary to make a fill along said new proposed highway as is more particularly shown on the plans, profiles and cross-sections annexed to the copy of this Resolution;

IT IS THEREFORE RESOLVED AND ORDERED:

1. That the Board of Supervisors of Yolo County ask, and it does hereby ask, the Southern Pacific Company to dedicate an easement to the County of Yolo for a public highway on the North side of the Rail Road of said Company along Ann Street in the said Town of Washington, in this County, said easement to be as follows, to-wit:

In the Matter of the Petition of Laura E.Lillard, John L. Smith, W.S.Wallace, and others for the organization of an Irrigation District,to be known as the Yolo Irrigation District.

This matter came on regularly for hearing on this 26th day of October, 1920 on the petition of Laura E. Lillard, John L. Smith, W. S. Wallace and others for the formation of an irrigation district, to be known as the YOLO IRRIGATION DISTRICT, under the provisions of the California Irrigation District Act, and it appearing to the Board, and the Board so finds, that said petition was duly presented to this board on Tuesday, the 7th day of September, 1920, and that at said time said board proceeded to a hearing thereof, as required by law, and duly adopted a resolution determining that the petitioners had complied with the requirement of the said Act of the Legislature, and did, at the said time, cause a copy of the resolution so declaring to be forwarded to the State Engineer, and at said time did postpone further hearing of said petition, as required by law, and that thereafter, on the first regular meeting of said board in October, 1920, to-wit, on the 5th day of October, 1920, it appeared that the State Engineer had, as required by law, made a report on the said matter to the Board of Supervisors which report was made within ninety days from the passage of the resolution hereinbefore referred to, and is on file with the other records of the board, and that at said regular meeting, which was the next regular meeting following the receipt of said report, the board set a time, to-wit, the 13th day of October, 1920, for the consideration of said report and the further hearing of said petition, and the said matter having been regularly continued from day to day to this time and it appearing that notice has been given by registered mail to the persons designated by the petitioners for that purpose, and the report of the State Engineer being before this board, and it appearing therefrom that the supply of water available for the use of the proposed district, or that may be acquired by any practicable means including the condemnation of existing rights, is sufficient, and that the said project is feasible; that there are no reasons why such district should not be organized, and that the said report of the State Engineer does not compel the continuance of said matter, the said board proceeded to a final hearing thereof, and oral and documentary evidence was received by said board, and the said Board of Supervisors, being fully advised in the premises:

NOW, THEREFORE, this board hereby reaffirms its conclusions as to the genuineness and sufficiency of the petition, and of the notice thereof, for the organization of said district heretofore given, and finds and declares that a petition was duly filed herein as required by

law, signed by more than five hundred petitioners, each petitioner to the number of at least five hundred being an elector in the proposed district, or some person, corporation, association or partnership, the holder of title to lands in said proposed irrigation district, or evidence of title to lands in said proposed irrigation district, including the holders of possessory rights under receipts or other evidence of the rights of entrymen or purchasers under any laws of the United States, or of this state, the said petitioners signing said petition, including the owners of not less than twenty per cent in value of the land within said proposed irrigation district according to the equalized County Assessment roll or rolls for the year last preceding, proposing the organization of an irrigation district under the provisions of an act of the Legislature of the State of California, entitled, "An Act of provide for the organization and government of irrigation districts, and to provide for the acquisition and construction thereby of works for the irrigation of the lands embraced within such districts, and, also, to provide for the distribution of water for irrigation purposes," approved March 31, 1897, and of the acts amendatory thereof and supplemental thereto, and that the said lands within the proposed boundaries of the said district are susceptible of irrigation from a common source and by the same system of works, and that all of said lands are situated within the County of Yolo; that the said petition was presented to the board at its regular meeting and that the signatures attached to said petition are genuine, and are the signatures of the persons, firms or corporations whose signatures they purport to be, and that prior to its presentation said petition was published for at least two weeks before the time at which the same was to be presented in the Woodland Daily Democrat, a newspaper of general circulation, printed and published in the County of Yolo, where the petition was presented, and in which the lands within said district are entirely situated, together with a notice stating the time of the meeting at which the same was to be presented, which notice was properly and legally signed, and that with the said petition, and accompanying the same, was a good and sufficient undertaking which was approved by the board of supervisors, in double the amount of the probable cost of organizing such district, conditioned that the sureties should pay all of said costs, in case said organization should not be affected, and that on or before the day on which said petition was presented to the board of supervisors a copy of said petition was filed in the office of the State Engineer, and at the time of the presentation of said petition the said board of supervisors heard the same and proceeded to determine whether or not said petition complied with the requirements set forth in said Act, and whether or not the notice required therein had been published as required by law, and heard all competent and relevant testimony offered in support of, or in opposition to, said petition, and thereafter the said board determined that the petitioners had complied with the requirements of said Act, and caused a copy of the resolution so declaring to be forwarded to the State Engineer:

And it appearing that in all things and respects the said petitioners have complied with all the provisions of law and that the said petition and notice contain all matters, things and statements required by law to be contained, and are properly signed; that all acts and proceedings were done and had within the time and in the manner prescribed by law.

And certain applications having been made for the exclusion of certain lands and the inclusion of certain other lands which said applications are on file with the County Clerk said applications were taken under consideration by the board after evidence was heard by the board with regard thereto, and the boundaries as proposed were modified to cover the portions of said lands excluded or included and after such changes said boundaries were fixed as hereinafter described and the board hereby finds that the lands so excluded either were already irrigated or entitled to be irrigated from another source or by another system or are so situated as not to be susceptible of irrigation from the proposed source or by the

proposed sustem and that the lands refused exclusion from the proposed boundaries are not already irrigated from another source or by another system and will be benefited by and are susceptible of irrigation from the system proposed to be adopted for said proposed district.

IT IS ORDERED that the territory comprised within the boundaries hereinafter described be, and the same is, hereby established and defined for organization as an irrigation district under the name of the YOLO IRRIGATION DISTRICT, under and in pursuance of the act of the Legislature of the State of California, hereinbefore referred to.

IT IS FURTHER ORDERED that said proposed district shall be known and designated as the Yolo Irrigation District, and shall be described, and the boundaries thereof shall be and are hereby defined and established as follows, to-wit, being in the County of Yolo and State of California, and more particularly described as follows, to-wit:

Resolution, relating to California State Automobile Association,etc.

Supervisor Hutchings moved the adoption of the following resolution.

WHEREAS, certain developments during the recent session of the California Legislature disclosed a condition warranting action on the part of the several Supervisorial bodies of the State, and

WHEREAS, These developments make it manifestly plain that the California State Automobile Association and the Automobile Club, of Southern California, organized, ostensibly, to promote the welfare of the motorist and the highways of the several counties of the State, have apparently abandoned such purpose and linked themselves with commercial interests as represented by manufacturers of trucks, tires etc., and

WHEREAS, It is generally known that these two organizations, with a combined membership of less than fifty thousand motorists out of nearly 700,000 in the State, are not representative of the motorists but on the contrary are impotent, self-constituted and under present management, a menace to the maintenance of goods roads and the prevailing idea of local self government for the several counties of the State, and

WHEREAS, This effort to deprive the Supervisors of the several counties of the right to regulate the gross weight of loads on the highways for the preseveration thereof; their effort to open the highways to the selfish instinct or caprice of the truckmen; their effort in combatting every effort to provide for future maintainance of the roads and highways through beneficial legislation; their open and avowed hostility to the officials of the several counties and, finally, their determination to utterly destroy a successful program of highway construction has subjected them to the warranted condemnation of the progressive and constructive forces of the State, and,

WHEREAS, After sustaing a lobby during the entire session of the legislature for the purpose of enacting laws inimical to the idea of preserving and maintaining the highways of the State, these self-appointed guardians of the interests of the motorists whine their apology in the shape of a denial, thereby indicating their desire to perpetuate their little organizations for further service to themselves and interests alien to the motorist, therefore be it

RESOLVED, By the Board of Supervisors of Yolo County, that we unqualifiedly condemn the action of the two associations mentioned and ask that the people of the County withold their support from them until such time as it is shown that both organizations purpose to cooperate with the people of the State in a program of progressive construction and proper maintenance, and be it further

RESOLVED, That a copy of this resolution be forwarded to the Governor of California, to each of the associations herein mentioned and to the State Highway Commission.

Passed and approved May 17, 1921.

Order appropriating $500.00 out of General Fund for repair of road in District No.4.

Supervisor Leinberger moved that the following order be made.

It appearing to the satisfaction of this Board that by reason of the fact it has become necessary to close the Woodland-Davis County Highway at Willow Slough on account of the construction at that point of a new bridge over said slough, and to divert the traffic from that point over lateral roads to a parallel road one mile west so that a crossing of said slough may be made over the Pollard bridge, and it appearing also that on account of the increase traffic over said detour considerable work is necessary on the roads thus traversed in order to keep them in a passable condition pending the construction of said new bridge, and it appearing further that this unprovidedfor additional expense, coming as it does right at the close of the fiscal year, will cause a burden on the funds of Road District No 4 too great to bear,

Therefore it is ordered that the sum of $500.00 be and the same is hereby appropriated from the General Road Fund for the purpose of paying the cost of the work necessary under this resolution and the Auditor is hereby authorized and directed to draw his warrant upon the General Road Fund for the purpose herein set forth, the aggregate of which shall not exceed the amount hereinbefore set forth.

Whereas, the Board did, at the time of fixing the tax levyfor the year 1920-21, establish a General Road Fund for Yolo County, by providing that 20% of the aggregate tax for road purposes be set aside for that purpose, and

Whereas it is provided in Section 2651 of the Political Code that one of the principal purposes of said General Fund is to provide " assistance for weak and impoverished road districts in keeping roads in repair", and

Whereas it appears at this time that the funds of Road District No 5 of said County, because of certain unforseen emergencies, are inadequate to meet the demands for ordinary liabilities accrued against it,

Therefore it is ordered that the sum of $1288.84 be appropriated from the general f fund, to be applied to the payments od demands against Road District No. 5 and the County Auditor is hereby authorized and directed to allow claims to that amount against Road Dist No 5, out of the General Road Fund.
